Montfort-International, it's 6 specialties under one roof

Montfort International is the distributor of Condat products for all of Eastern Canada. Our mission :
To help our customers become more productive by increasing the efficiency of their operations and the quality of their products while providing a safe environment for their workers.

Sawing & Cutting

Specialized in sawing and cutting since 1989, Montfort offers reliable bandsaw machines and bandsaw blades for all your metalworking needs. With the Ideal Bandsaw Blades, you will get the best "cost per cut" ever.

Industrial Lubricants & Liquid Filtration

Whether it's for metal machining, cutting or grinding, Montfort can provide you with the best lubricant and equipment for your environmental, budget and/or performance requirements.

Machine Safeguarding & Modular Guard Systems

Manufacturing factories, machine shop, tooling machines, automatization, robotics and logistics are the main fields of application for our machine guarding and modular guard systems. We provide a full design, build & installation service.

Industrial Finishing & Deburring

Boost your productivity with efficient finishing and deburring systems to keep costs at a minimum and help prepare parts more quickly for the next production operation.

Industrial Equipment

Montfort International is a leading distributor of industrial machineries, tools, equipment and accessories. An overview of our range of products: welding machines, conveyor systems, equipment for machining aluminum, drilling tools and more.

Technical Services, Spares & Repairs

For routine maintenance, installation and start-up assistance, planned outages or complex repairs, turn to Mecapro Field Service for prompt, professional single-source services, no matter where you are located.

Montfort, An Experienced Company

Did you know that Montfort International has been in the field since 1989?

We began our operations on September 25, 1989. Our founder, Raymond Thériault, had already been active for several years in the tooling and industrial equipment industry.

Complete and Varied Inventories

Montfort invests a lot of time and resources to find the best products and equipment. Our inventories, available in large quantities, allow us to quickly find the perfect product for your needs.

A Global Presence

Montfort buys and sells on all continents. Our products are found in more than 120 countries! Our location in the heart of Quebec City gives us the opportunity to ship very quickly. Orders on our most popular products are delivered in less than 24 hours.

Industrial, Institutional and Commercial Customers

We are present in all manufacturing environments. We also supply products and services for various public and parapublic institutions and organizations (Hydro-Québec, Energir, etc.) as well as municipalities, trade schools, universities, among others.

Montfort, An Experienced Company

Technical Advisors for All Regions of Quebec, Ontario and Eastern Canada

Montfort's customer service does not end with the purchase of a product. Our mobile team of technicians and electromechanics will always be at your service, whether for maintenance, installation or start-up of your machines, analysis and diagnosis of problems, relocation of machines and even more.

A Turnkey Service

At Montfort International, we strive to optimize our customers operations, reduce their production costs and provide a safe environment for their team. Our multidisciplinary team stands out from the competition by meeting your specific needs with tailor-made solutions, equipment and tools notorious for their reliability and excellent value for money.

We Make Sure To Meet Many Safety and Industrial Standards

Industry standard regulations change from country to country. Trust Montfort International to advise you on the appropriate product for your country's standards. Equipment and products meet one or more of these standards: CA , CSA , CE or CUL.

We Are on The Lookout for New Technologies

We are committed to staying at the forefront of all new technological and industrial innovations, which allows us to offer effective advice and equipment as well as a wider range of products.
